LABEYE Loïc *Software Engineer*

Denmark | loic.labeye@pm.me | +33610906836 | labeyel | loic.labeye.eu | French

Software Engineer with over 5 years of experience building cloud-native and GenAI-driven systems. Specialized in scalable backend architectures, internal platforms, and data-driven automation in enterprise environments.

PROFESSIONAL EXPERIENCES

TotalEnergies EP, *Software Engineer* 02/2025 – Present
Esbjerg, Denmark

- Architected and deployed a cloud native internal document validation platform, processing and analyzing 500+ financial documents/month.
- Engineered an enterprise-grade GenAI (RAG) platform streamlining domain-specific knowledge discovery for 100+ operators in their day-to-day workflows.
- Led the development of an inventory management review tool, streamlining process across departments and stakeholders.

Allianz Trade on behalf of Aubay, *IT Consultant* 03/2021 – 02/2025
Paris, France

- Led the technical evolution of an enterprise CRM portal, integrating Salesforce APIs to centralize data, improving system resilience and accelerating feature delivery cycles.
- Maintained a customer portal supporting 30,000+ monthly active users worldwide, ensuring high availability.
- Orchestrated the migration of legacy systems to a modern tech stack, reducing technical debt and improving developer velocity.

SustainEcho, *Backend Software Engineer Internship* 06/2020 – 08/2020
Paris, France

- Engineered the startup's initial backend REST API from scratch within a 2-month sprint using Python (Django).
- Implemented core business logic, endpoints, and validation schemas, documenting the entire API surface via Swagger for seamless client consumption.

EDUCATION

M.S. in Computer Science & Software Engineering, *ESIGELEC Rouen* 2016 – 2021
